November 2023

HOW HAS MARKET PERFORMED IN LAST 2 YEARS

INDEX	18-Oct-21	31-Oct-23	% CHANGE
SENSEX	61143	63874	4.47
NIFTY 50	18477	19079	3.26
NIFTY MIDCAP 150	12218	14566	19.22
NIFTY SMALL CAP 250	10013	12033	20.17
NIFTY AUTO	11814	15916	34.72
NIFTY BANK	39684	42845	7.97
NIFTY CONS. DURABLE	30469	28061	-7.90
NIFTY ENERGY	25148	26785	6.51
NIFTY FMCG	41564	51262	23.33
NIFTY IT	36306	30582	-15.77
NIFTY METAL	6253	6452	3.18
NIFTY PHARMA	14598	14683	0.58
NIFTY PSU BANK	2824	4934	74.72
NIFTY REALTY	541	603	11.46
NIFTY PRIVATE BANK	20628	22235	7.79
NIFTY OIL & GAS	8216	7609	-7.39

- ✓ From above we can see that amongst the broader indices, Nifty Midcap 150 and Nifty Small Cap 250 have given reasonable returns. However, during the same period, fund managers have shown huge outperformance in Midcap and Small cap segment.
- ✓ Amongst the sectoral indices, except Nifty Auto and Nifty PSU Bank all other indices have not done well in last 2 years.

10 Financial Learnings From The Game of Cricket

Just as a cricket team strategizes to score runs and win matches, you can develop a sound financial plan to meet your goals effectively

K S RAO, Head - Investor Education & Distribution Development, Aditya Birla Sun Life Asset Management Company Ltd

Managing money and financial planning can sometimes feel like a complex game, as it entails different strategies, risks, and rewards. Cricket, a strategic game that requires skill, teamwork, and careful planning, can offer valuable insights into managing money and financial planning. By understanding the parallels between cricket and financial decisions, individuals can develop effective strategies to achieve their financial goals. Just as in cricket, success in managing money requires a combination of skill, strategy, and discipline. Here are some of the key financial learnings:

Playing the Innings

In cricket, teams set targets for their innings, aiming to score a specific number of runs. In financial planning, setting clear and achievable goals is crucial. Identify short-term and long-term objectives that reflect your financial aspirations, such as saving for retirement, buying a home, or paying off debt. Like the captain decides whether to bat or field first after the toss, setting your financial goals is the starting point. Determine whether you want to focus on short-term goals (batting) or long-term goals (fielding), by understanding your risk appetite and time horizon.

Fielding Positions

Cricket fielding positions, strategically placed, reflect the level of risks the team is willing to take. Similarly, identifying your risk tolerance is essential for financial planning. Consider your willingness to bear risks when making investment decisions, choosing between low-risk options like fixed deposits or higher-risk options like stocks.

Selecting Players

Just as a cricket team consists of players with unique skills, managing money requires assembling a financial team.

Engage professionals who specialize in various aspects of financial planning, such as appropriate financial products, mutual funds, financial advisors, and consultants. Their expertise will complement your financial goals and ensure you take well-informed decisions.

Having A Game Plan:

Just as cricket teams devise strategies to score runs and take wickets, your financial strategy should align with your goals. This involves identifying the right investment avenues, managing risks, and diversifying your portfolio to maximize returns and minimize potential losses.

“
Learn from the tactics of the game, focus on your goals, select the right team, devise a strategy, and be the captain of your financial future
”

Running Between Wickets:

In cricket, batsmen score runs by running between wickets swiftly. Similarly, consistent savings contribute to financial success. Regularly set aside a portion of your income for savings or investment. This disciplined approach will allow you to accumulate wealth over time and achieve your desired financial milestones.

Bowling Different Deliveries:

Cricket bowlers employ diverse

techniques to keep the batsmen guessing. Likewise, diversification is fundamental to financial planning. Distribute your investments across various asset classes, such as stocks, bonds, real estate, and cash, to mitigate risk and maximize returns, ensuring stability in your portfolio.

Analysing the Scorecard:

Cricket teams meticulously analyse scorecards to evaluate progress, identify strengths, and improve weaknesses. Likewise, regularly monitoring your financial position, reviewing investment performance, and evaluating your financial progress are crucial to stay on track toward your goals, adapt to market changes, and make informed decisions.

Fielding and Bowling:

Cricket teams adjust their strategies based on changing field conditions and opponents' strengths. Similarly, financial planning requires adapting to market volatility, economic factors, and personal circumstances. This might involve rebalancing your portfolio, updating insurance policies, or revising your investment plans.

Fielding Positions in Different Conditions:

Cricket teams adjust fielding positions to counter challenges posed by different conditions. Similarly, implement risk management strategies in your financial plan. Explore insurance options, emergency funds, and contingency plans to safeguard against unexpected events and ensure financial stability.

Planning for Test Matches:

Cricket test matches demand a strategic, long-term approach. Similarly, financial planning requires a vision that extends beyond short-term gains.
