

What is UDGAM?

UDGAM: RBI's Centralized Portal to search for Unclaimed Deposits

On 17th August 2023, RBI has launched a new centralized portal named **UDGAM [Unclaimed Deposits – Gateway to Access Information]** – that allows common people to search for unclaimed deposits across multiple Indian banks using a single common interface.

In India, as reported earlier also in The Investigator, there are thousands of crores lying across banks as unclaimed deposits. So, many people want to know if there is some money that they are unaware of. RBI has also been undertaking public awareness campaigns about unclaimed deposits from time to time. Therefore, the launch of the centralized portal is a step in the right direction.

If an account or deposit does not have any transaction for more than 2 years, it becomes **inoperative or dormant**. The bank is required to contact the customer via email, phone, SMS etc about this. But if this account/ deposit does not see any activity from the accountholder for 10 or more years then such accounts are deemed as **Unclaimed Deposits**.

At the time of launch, the search facility will be available for data of unclaimed deposits of only 7 banks on the portal. These are State Bank of India, Punjab National Bank, Central Bank of India, Dhanlaxmi Bank of India, South Indian Bank Ltd., DBS Bank India, and Citibank. The facility for remaining banks on the portal would be made available in a phased manner by 15 October 2023.

"Never depend on a single income. Make an investment to create a second source."

-Warren Buffett

How Indian stocks have performed in last 10 Years

The study breaks down performance (10 Year Stock CAGR) of 2,606 stocks that are listed for 10 years or more

The above data is as on 11th August 2023. Investors can check from above that chance of good results when investing directly in stocks is just 50%.

A good number of stocks i.e. 25% have given negative to 5% CAGR. At the same time 50% stocks have given more than 15% CAGR in last 10 years.

6 PROFITABILITY RATIOS

(Derivative4life)
